

SOVIET SCIENTIFIC AND TECHNICAL PERIODICAL PUBLICATIONS

The attached list represents current Soviet scientific and technical publications. Periodicity is given in parentheses following the English translated title. The first year of publication for periodicals since 1954 is indicated in the left-hand margin. Titles marked with a single asterisk (*) are not available but are known to be published. Those titles marked with a double asterisk (**) have not yet been received. The first column on the right indicates which periodicals contain English-language (unless otherwise indicated) tables of contents (T/C) and abstracts (Abs) or both (T/C
Abs). The second column indicates titles which are being completely translated (x) or which have been proposed and advertised by commercial translation services.
